

PREPARATIONS BEFORE INSTALLATION

Estimate date for installation: _____

DEAR CUSTOMER, FEW TASKS FROM YOU BEFORE THE INSTALLATION

1

SPACE PREPARATION

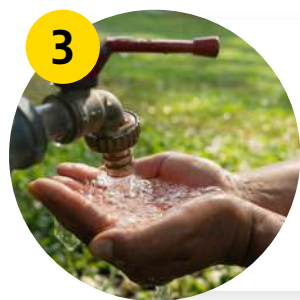

Clean and level the plot we marked together with the sticks

2

FRESH MANURE

Prepare one barrel with 150 Liters of fresh manure – best from the morning of installation day.

3

AVAILABLE WATER

Make sure you have 5,000 liters for first time digester fill.

4

SPACE IN THE KITCHEN

Make sure you have a free place for your new double stove burner

5

YOUR HELP

As agreed, Make sure one person (you or your helper) are free to help on the 2-3 hours of installation day
